VISA SECTION

Transit Visa (Subclass 771)

Application Document Checklist

This document lists the information and supporting documents required for your Transit visa application. It also lists additional documents that you may need to provide depending on your individual circumstances.

You must provide copies of the original documents. Certified copies or original documents may be requested during the processing of the visa application.

Documents not in English must be translated by an accredited translator. For clients in South Korea, documents not in English must be translated and notarised by a Notary Public. For clients in Japan, the English translation must be translated by an accredited (<http://www.naati.com.au>) or professional translator. The translation must be either on company letterhead or must have the translator's official company stamp/seal and must include their contact details.

You should ensure that you lodge a completed visa application. While you may be asked to provide more information in order to determine whether you meet the criteria for grant of the visa, a decision on the visa application may be made solely on the information provided at the time of application.

After completing this checklist, please attach it to the front of your application.
